

CURRICULUM VITAE

Name	Paola BONFANTE 
Birth	Born in Torino, May 7, 1947
Nationality	Italian
Present address and role	Department of Life Science and Systems Biology Viale Mattioli 25 - 10125 Torino tel. +39 011 670 5965 (office) 3493131231 E-mail: paola.bonfante@unito; Skype paolabonfante Full Professor of Plant Biology (till November 2017) Currently: Professor Emerita
Education	<ul style="list-style-type: none">• Italian Thesis in Biological Sciences, University of Torino (1970).• PhD equivalent in Soil Mycology- CSMT, National Council of Research, Torino, ITALY (1970-1973)
Key qualifications	<p>Research Field: Biology of Plant-Microorganism Interactions and Sustainability.</p> <p><i>More than eighty per cent of land plants live associated to bacteria and fungi, which act as biofertilisers and bioprotectors against pathogens. They build up a plant microbiota which a crucial tool to develop new strategies for a more sustainable agriculture</i></p> <p>Research Group coordination and main discoveries: The group she has coordinated has a research tradition on the biology of symbiotic associations, mainly mycorrhizas, and fungal taxonomy which dates back to 1975. PB spent a long part of her scientific activity studying the intimate interactions that occur between symbiotic fungi and plants as well as between bacteria and fungi, using cellular and molecular approaches. Applying DNA technologies, early in the nineties, she provided contribution to the knowledge of mycorrhizal diversity in natural as well as in cultivated fields. The main scientific missions of the group have been and still are: To understand the cellular and molecular basis of plant-fungal interactions in mycorrhizas; to investigate the genetic determinants which characterize some mycorrhizal fungi; to define the fungal biodiversity in soil; to evaluate the fungal impact in natural and agricultural ecosystems in the frame of sustainable agriculture; to investigate the fungal interactions with other microorganisms.</p> <p>In this context, in the early eighties Paola Bonfante built up an atlas of the cellular plant- fungal interactions occurring in mycorrhizal symbioses; later she has discovered two groups of endobacteria which live inside mycorrhizal fungi and - thanks to their genome sequencing- she described how these microbes may modulate some of the functional traits of their fungal hosts. These findings</p>

have pioneered a new field of research (Fungal-bacterial interactions) which is currently considered relevant in the context of the environmental microbiota. With her research group, she has discovered fungal bioactive molecules (chitooligosaccharides) which are perceived by the host plant in order to establish the arbuscular mycorrhizal symbiosis. Such molecules are currently used to improve plant growth under in field conditions. The expertise on cellular and molecular biology of plant/fungal interactions as well as on dynamics of fungal populations is witnessed by a large number of original, review and technical papers and multiple international collaborations.

Major scientific projects

In the more recent times, PB has devoted her attention to the beneficial impact of plant microbiota on crop plants by using omics approaches. On these issues, she has coordinated projects on: Bacterial and fungal microbiomes in rice, tomato and wheat; Dissecting the role of the fungal intracellular microbiota; Rice, tomato and wheat responses to arbuscular mycorrhizal fungi; Genomics and Functional genomics in mycorrhizal fungi; Systemic effects of mycorrhizal fungi on plant traits

Positions

Professor Emerita
Full Professor of Plant Biology at the University of Torino (1984-2017)
Head of the Department of Plant Biology (October 2006-December 2011)
Responsible of the Centro di Studio sulla Micologia del Terreno del CNR-Torino, currently named Sezione di Torino dell'Istituto di Protezione per le Piante (1995-2009), Coordinator of the PhD school in Biological and Biotechnological Sciences; (2006-2013), Coordinator the PhD Course in Biology and Biotechnology of Fungi (2000-2005)

Teaching positions

Till November 2017- Natural Sciences (Botany, Plant-Microbe interactions), Biology (Plant-Microbe interactions), Plant Biotechnology

Supervisors of hundreds of undergraduate students, and of more than 60 PhD students and postdoctoral fellows. Many of them are currently enrolled in Italian and European Universities, as well as in CNR and INRA laboratories.

Scientific responsibilities and general activities

Member of the Scientific Committee for Research Activities-Provincia di Trento (2014-2019).
Member of the Scientific Committee of CNR (2012-2016)
Member of the General Committee Compagnia di San Paolo 2020- (<https://www.compagniadisanpaolo.it/it/fondazione/organismi/consiglio-generale/>) of the Fondazione Compagnia San Paolo Torino
<https://www.compagniadisanpaolo.it/it/>

Organizer of many symposia, workshops and meetings on mycorrhizas and symbiotic fungi;
Visiting scientist in Japan (1989), Brazil (2012), Mexico (2016)
Invited speakers in many international congresses of Mycology, Microbiology, Botany, Biotechnology, Plant Pathology, Cell Biology, Fungal genetics, Genetics, Memorial Symposium for Biology of Symbiosis, ICOM, iMMM, Microbiota, ISME meetings
Invited seminars in many universities, worldwide
Invited to be External examiner (Opponent) for more than 20 PhD Dissertations in Europe
Member of the Scientific Committee of the Dijon Campus (France)

Editorial and evaluation activities

Member of the Scientific Committee of Plant for Future (Italy)
Organizing committee of many meetings, among which MPMI Meeting in Sorrento (2007), 8th International Congress of Plant Pathology (Torino, 2008), Indian-Italian Workshop (November, 2010), IMMM (Cambridge 2015, Toulouse, 2017, Torino 2019), ISME 2016; XLVI SEMINARIO Evoluzione biologica e i grandi problemi della biologia: Il microbiota, il secondo genoma degli eucarioti

IMA Executive Committee (International Mycological Association) 2018--

Editorial and evaluation activities

Editor of Environmental Microbiology (2013-);

Senior Editor IMA FUNGUS (2019-)

Editor of Microroganisms (2019-2020)

Associated Editor of Fungal Biology (Till 2015); Board member of New Phytologist, Board member of IS-MPMI *Interactions*, The ISME Journal
Referee for papers concerning mycorrhizas for different journals (ie. Science, Nature, Plant Cell, Plant Journal, Plant Physiology, Planta, Fungal Biology & Genetics, PNAS and many others)

Evaluator for scientific European and American (NSF) Agencies. Evaluator for: ERC (Senior grants, 2011, 2019; Consolidated grants 2016), Finnish Academy, Helsinki (2018-2019); The European Science Foundation (2019-2020-2021); MIUR (2018); CSIC Labs (Madrid, 2018), ANR (2020-2021)

Jury Panel: Premio Lombardia è Ricerca - 2020-2021

Awards

Fellow of Academy of Sciences of Torino (2000), Academy of Agriculture of Torino (2000); Accademia dei Lincei Roma (November 2011, November 2021), Académie d'Agriculture de France, Paris (2018), Accademia Europea, MAE (2019)

Award for Plant Biology 2010, Roma, June 2010

Award for the Award for the French Food Spirit- Science – Paris, December 16, 2010

2021: The Adam Kondorosi -Accademia Europaea Award for Advanced research

2019: Appointed Commander ("Commendatore") of the "Order of Merit of the Italian Republic" by the President of the Italian Republic ("motu proprio").

She is in the list of:

1. Top Italian Scientists- Ranking 5 for the typology **Natural sciences**
http://www.topitalianscientists.org/TIS_HTML/Top_Italian_Scientists_Natural_Environmental_Sciences.htm

2. Highly Quoted Researchers, (ISI) Philadelphia.
<http://hcr.stateofinnovation.com>;

In the list of Clarivate Analytics: highly quoted researcher 2017, 2018, 2020

3. One hundred Italian Experts: <http://100esperte.it/search?id=bonfante-paola-70>

4. Member of Group 2003 <https://www.gruppo2003.org>

Scientific production

Papers in refereed journals: more than 390 (listed in the official site of the University Ministry and in the web sites of the Torino University

http://www.dbios.unito.it/do/docenti.pl/Show?_id=pbonfant#pubblicazioni

**Broader
Science
Communi-
cation**

Google scholar: H index 97; citations more than 30 000

<https://scholar.google.it/citations?user=WiJOKEQAAAAJ&hl=en>

Lectures on Plant biology, Microbes, Agriculture, Food and Environments (2019-2020) for

Higher Schools in Torino, University "Terza Età"; Science Festival (Mantova 2019; Bergamo 2019, Genova 2021); Giovedì Scienza (Torino 2020); Prepararsi al futuro (Torino, 2020), Maratona : I love Scienza 10 November 2020

TV interview on Agriculture <https://www.raiplay.it/video/2020/12/Prepararsi-al-futuro-La-natura-e-ancora-naturale-1c509588-56fb-4907-8a28-3e4a1f06243a.html>
