

Professional Profile

Mario Ciancarini

Professional objectives

I believe in the power of diversity to unlock innovation and value. I like to embrace new stimulating challenges and being active in providing solutions and strategic vision. I work to combine an open innovation attitude to a result driven management approach, with a consolidated experience in energy market, climate change analyses, business planning acquired through several experiences in an international environment. Possesses excellent leadership by example, significant experience in top management support, complex problems solving and managing cross-functional team even with high technical skills.

I am passionate about learning new things and helping people in their growth, delivering an inclusive and sustainable professional and human growth. I am highly motivated in leading excellent results in challenging working environments.

A pessimist sees the difficulty in every opportunity; an optimist sees the opportunity in every difficulty - Winston Churchill
