Ongoing Research Projects – Current Academic Position

Operational Coordinator of the OBCD Project – Open Business for Community Development

(*Erasmus+ Program, 2022-2025*), under the scientific direction of Prof. Cerruti. The project promotes innovation and interest in social enterprises in higher education (HE), continuing vocational education and training (c-VET), and the wider socio-economic environment. Led by the University of Patras (Greece) and supported by 12 other European organizations, it focuses on developing a methodology to assess the social impact of new programs, particularly in relation to sustainability.

Collaboration on the Upcycling of Microfibers into Nanodiamonds Project (*co-financed by the Italian Ministry of Ecological Transition, General Directorate for Circular Economy*), in partnership with the Faculty of Biology (coordinator), the Faculty of Chemical Sciences and Technologies, Civil Engineering, and Computer Engineering. The project involves:

1. Development of filtering systems, analysis of collected microfibers, and eco-design of the filter.
2. Evaluation of the efficiency of transforming microfibers into carbon-based materials.
3. Microbiological analysis of wastewater and development of a microbial consortium.
4. Water rehabilitation systems and removal of chemical and biological contaminants.
5. Life cycle analysis of the proposed value chain.
6. Social and economic impact assessment (*2023-2025*).
