

## CV Lambèr Royakkers

Lambèr Royakkers (1967) is professor Ethics of the Digital Society at the Department School of Innovation Sciences of the Eindhoven University of Technology. Lambèr Royakkers has studied mathematics, philosophy, and law. In 1996, he obtained his PhD on the logic of legal norms. During the last few years, he has done research and published in the following areas: ICT and ethics, robo-ethics, and moral responsibility. His research has an interdisciplinary character and focuses on the interface between ethics, law, and technology. From 2007 till 2012 he also was associate professor Military Ethics at the Netherlands Defense Academy. Royakkers was/is involved in several NWO (The Dutch Research Council) projects and European projects, such as The Refugee Crisis in Europe: Modelling Humanitarian Logistics (2017-2019, project leader); NWO-project Strengthening cyber resilience by technological citizenship (2020-2024, project leader); FP7-project SUBCOP (SUicide Bomber COunteraction and Prevention, 2013-2016, chairman of the ethics advisory board); Horizon 2020-project SCALINGS (Scaling up Co-Creation: Avenues and Limits for integrating Society in Science and Innovation, 2018-2022, co-applicant). He has authored and co-authored more than 10 books, including *Ethics, Engineering and Technology* (Wiley-Blackwell, 2011), *Moral Responsibility and the Problem of Many Hands* (Taylor & Francis Group, 2015), and *Just Ordinary Robots: Automation from Love to War* (CRC Press, 2016).
